Dynamic, DIB (Defense/Medical Industry Base) designated “Essential”, high-tech firm in growth mode looking to fill full-time position for Product Manager. The Product Manager (PM) is responsible for maximizing revenue and gross margin for their respective product categories by ensuring we have the right products for the markets and geographies Meritec serves. The PM is responsible for product planning and execution throughout the Product Lifecycle, including: gathering and prioritizing product and market/Customer requirements, defining the product vision. Working closely with sales channels, marketing, engineering, and support to ensure revenue and Customer satisfaction goals are met. The PM's job also includes ensuring that the product aligns with Meritec's overall strategy and goals.

The position is located in Painesville OH, at the firm's Corporate Office

Employment Type: Full-time

**Essential Duties and Responsibilities:**

- Ensure that product strategies are in alignment with Company strategies
- Interface with Customers to create product requirements
- Proactively identify and work to resolve product issues
- Work closely with Customers, sales, reps and engineering to ensure product goals are met
- Translate product requirements into deliverable product definition
- Propose and be accountable for product investments
- Identify opportunities to innovate and improve products
- Demonstrated success defining, developing (Acquiring) and launching products.
- Conduct market research and competitive analysis
- Understand the competitive landscape and market trends
- Using stage gate process and project tracking, work collaboratively with operations, engineering, marketing, sales, customer service and finance to develop and execute product plans
- Oversee and manage product line life cycles to maximize revenue and gross margin while anticipating potential problems that affect product success and market adoption.
- Own and enhance profitability of their products, maintain appropriate price lists, quotation database, New Business Opportunity (NBO) log.
- Work with Sales Channels to determine best solutions and Customer satisfaction.
- Ensure applicable price increases on annual or as needed are attended to in a timely manner.
- Establish the annual product forecast and be responsible for meeting top and bottom line objectives.

**Knowledge, Skills and Abilities:**

- Strong understanding of business within the appropriate market place.
- Good understanding of electronic hardware development and manufacturing process
- Ability to review schematics and mechanical drawings to ensure product requirements are met.
- Ability to develop accurate costs and understand challenges within Bill of Materials (BOM) / product
- Business skills including P&L, Business Case Strategy, and Strengths, Weaknesses, Opportunities and Threats (SWOT) Analysis
- Ability to manage multiple products simultaneously
- Excellent attention to detail and organizational skills
- Strong analytic and strategic thinking skills
- Excellent presentation, interpersonal and communication skills, and the ability to work well in a team environment
- Ability to effectively communicate with both internal and external Customers
- Process oriented
- Ability to think and work independently
Education & Experience:

- 5 years’ experience in handling electronic hardware related programs
- 5 years’ experience in Customer interfacing with an Original Equipment Manufacturer (OEM) as a supplier
- Experience in managing product lines a plus
- Experience using tools to analyze product data
- Microsoft Office Skills needed
