Quality Inspector Job Post
September 2021

Meritec headquartered in Painesville, Ohio, is a dynamic, DIB (Defense/Medical Industry Base) designated “Essential”, global high-tech firm in growth mode looking to fill full-time position for Quality Inspector. The position is crucial in supporting Manufacturing and Quality to help establish and build relationships and trust by solving problems and exceeding Customers’ expectations with exceptional on-time delivery of innovative, high-performance interconnects (electro-components and sub-assemblies) striving for zero-defect. Meritec values and safeguards Work Family, recognizes importance of work-life balance, offers a great working environment, competitive pay and benefits, rewards with advancement and incentives. Interested candidates please send resumes to HR@MERITEC.com, or internal candidates can please announce your interest to Jason Mahon, QA Manager, at Ext. 264 or cell 440.724.4190.

This position reports to The Lead Quality Inspector, and will be primarily responsible for inspecting and measuring product and recording the results of their inspection. Quality Inspector will also monitor manufacturing processes, verify production records, and assist with maintaining the quality management system in the production cells.

All Candidates must be U.S. Citizens. Candidates must be willing and able to pass a background check and drug screening to be considered for a position at Meritec. Meritec provides equal employment opportunity to all individuals/M/F/D/V.

ESSENTIAL DUTIES AND RESPONSIBILITIES include the following. Other duties may be assigned.

1. Interpret blueprints, engineering specifications, and other process documents to obtain product information such as specified material, color, finish, and dimensions.
2. Perform periodic in-process and final inspections, and SPC control charting as applicable.
3. Perform various assigned production duties when not engaged with inspection or quality evaluation activities.
4. Operate all standard inspection equipment; including calipers, micrometers, comparators, measure scopes, height verniers, scales, etc.
5. Quality systems support - ensure that corporate quality systems and procedures are implemented and followed on the floor. Support quality assurance activities as need (examples include quality training, audits, customer return evaluations, corrective actions, etc.)

This is a hands-on position that may be assigned additional projects as requested by the Lead Quality Inspector

EDUCATION and/or EXPERIENCE
High school diploma required
Minimum of 2 years of experience required
Ability to read and interpret engineering drawings.
Proficient in the use of measurement tools (Calipers, Micrometers, Gage Pins, GO-NO/GO Gages and vision systems).
Ability to multi-task and quickly shift priorities in support of production needs.
Willingness to work overtime, as needed.

CERTIFICATES, LICENSES, REGISTRATIONS
None required
